MALARIA EVERYWHERE. - Bare has there been a season as fruitful as this of malar-tous diseases. Not only on the prairies and in the valleys of the west; not merely in all the old haunts of Fover and Ague and Billious Remitent Ferer, have these prostrating diseases been unusually virulent; but they have extended to towns and cities never before infested with them, and have even ascended the mountains and attacked thous ands of people supposed to have been placed by the laws lof nature above their reach. Hence we are ripelled to admit that a fearful element pervades the Universal Air this season, and should at one resort to the only approved preventive of its consequences, HOSTETTER'S STOMACH BITTERS, a tonic so potent, an anti septic so perfect, an alter enables the human system to resist and bafficall the reilisposing causes of disease. With the confidence more among blazing buildings, the man who arms himself against malaria with this powerful defeasive medicine may walk a fever accourged district fearless of its insalubrious atmosphere.
